

BENCHMARK CONTRACTS LTD

> LEADING THE WAY . . .

Benchmark Contracts Ltd is a main contractor with specialist roofing division, operating in the South East and the Midlands. They have been established since 1991 and were the fourth supplier to join Constructionline.

Mark Turner, the director of Benchmark Contracts Ltd, remembers those early days and the reasoning behind their decision, 'We appreciated and valued what Constructionline meant and realised that in the long term it would save us an enormous amount of time and money and generate lots of business opportunities. A decade later, we can certainly say we made the right choice.'

> MAINTAINING THE STANDARD . . .

The construction industry has developed a lot since the early days of Constructionline, and the service has kept the pace of the industry by incorporating new regulation within the criteria. This ensures all Constructionline accredited suppliers meet each and every criteria that buyers may impose and by doing so, the database has continued to reduce duplication in the pre-qualification process.

Mark adds, 'Each and every PQQ that is filled out at our offices generally takes 1 full day to complete properly and accurately. This task alone is costly and mundane and seems ridiculous when most of these PQQs simply replicate the information that is already stored and is far more detailed on Constructionline.'

'In addition, the support from the Constructionline customer service team in terms of response times, knowledge and general helpfulness has been very good. I would recommend that other companies try it and see how they could benefit from being registered', he finishes.

// COMPANY PROFILE
