

## ORBIS PROPERTY PROTECTION LTD

### > DEMONSTRATING A HIGH STANDARD . . .

Orbis have established themselves as the UK's leading provider of empty property and security services, operating from over 50 locations nationwide and providing services to local authorities, housing associations, social landlords, health authorities, emergency services and commercial companies. They have been registered with Constructionline for over 5 years.

Their services include empty property security (temporary alarms, demountable screens and risk management insurance), cleaning & clearance (property cleaning, bulk waste removal, graffiti removal, needle sweeps and other specialised cleaning services) as well as specialised support service such as Lone Worker Protection available 24/7.

Debansu Das, Marketing Manager at Orbis, explains their reasons for joining and remaining registered with Constructionline. 'Our Constructionline membership helps us to demonstrate that our systems and measures meet with the high standards set by law and provide us with a platform to satisfy various needs of clients across the country'.

### > SECURING NEW BUSINESS . . .

Apart from offering their clients a reassurance of their continued good business practices, the Constructionline membership has also proven to be an overall asset in winning new business for Orbis. Debansu elaborates, 'We had mentioned our Constructionline membership in most of the 22 tenders that we won over the last year and a half. Our membership helped us get high scores on various factors such as health and safety, quality and financial, without having to undergo numerous audits and waste reams of paperwork'.

Orbis are also reassured that their information on Constructionline is accurate and regularly updated. Debansu continues, 'Our membership with Constructionline has also helped to consolidate other contracts. For example, one of our top 3 clients in Scotland uses the details on Constructionline extensively which ensures that we meet their requirements and are included on their approved suppliers list. This example indicates that we could have lost this client worth half a million pounds per year if we had not joined Constructionline'.
