

Dynamic Purchasing System for Minor Gas Works - Pipeline and Assets Frequently Asked Questions

Who are Cadent? Cadent is a gas distribution company that connects customers to the gas they use – whether its homes, factories, shops or businesses. Cadent is committed to operating gas pipelines in a safe and reliable way with minimum inconvenience to communities. There are eight regional distribution networks, four of which are owned by Cadent. The four owned by Cadent are in the West Midlands, North West, East of England and North London. Gas is owned by your gas supplier and Cadent is responsible for this gas whilst it is being transported. Our UK distribution networks deliver gas to around 11 million consumers.

What is a DPS? The DPS is a two stage sourcing process which will enables contracting authorities to contract for works, goods and services from suppliers who have been verified and approved at the setting up (Stage 1) of the process.

The DPS gives a platform for suppliers to compete for minor gas pipeline and assets works, including, but not limited to, Gas Construction projects, Reinforcement, De-commissioning. The scope of these works may be Design and Build or Build only and can range from either one-off projects to small programmes of work.

Why are Cadent setting up a DPS?

The Utilities Contract Regulations 2016 (UCR16) permits the use of fully electronic process of procurement through the use Dynamic Purchasing System (DPS). From July 2018 Cadent are going to be using a DPS to contract with suppliers for Minor Gas Works. In order to work for Cadent in the future for this category of work suppliers will need to be registered on Cadent's DPS for Minor Gas Works - Pipeline and Assets.

Who is Managing the DPS?

Cadent are using a Constructionline (Procurement and Supply Management Service host company) to carry out the stage 1 assessment of all submitted applications. All interested supplier's are required to submit their applications to Constructionline who will carry out assessment and verification checks.

How does the DPS work?

Stage 1 – To join the DPS, suppliers will be asked to meet an initial set of selection criteria, based on Publicly Available Specification 91 (PAS 91) standards which was commissioned by Government and developed by the British Standards Institute. On satisfactory completion of the selection criteria the supplier will be admitted onto Cadent's DPS for Minor Gas Works - Pipeline and Assets. Suppliers can join at any time during the validity of the DPS. There will be no limit on the number of suppliers that may join the DPS.

Stage 2 – At the second stage an Invitation to Tender will be issued to relevant suppliers on the DPS, filters will be applied to the DPS to ensure the most suitable suppliers are invited to tender. Filters include, but are not limited to, geographical, value of project, certification (eg. GIRS)
