---

Thank you for choosing to join Constructionline. You are now amongst a community of over 45,000 suppliers and 4,000 buying organisations that have registered with Constructionline to simplify the procurement process.

Constructionline is the UK's leading provider of third-party, technology enabled qualification and accreditation services, playing a critical role in the procurement value chain. Constructionline collects, assesses and monitors over 30 million pieces of information, from more than 45,000 suppliers through a PAS 91:2013+A1 2017 aligned question set, the standardised pre-qualification questionnaire developed by BSI to reduce duplication within the construction industry.

Our aim is to provide efficiency savings and opportunities to Suppliers working with public and private sector Buyers within the construction industry. We do this by providing a single source of accreditation, streamlining procurement procedures and improving the supply chain management processes, reducing risk and helping Suppliers work more easily and efficiently with Buyers.

At Constructionline, our mission is to help our members simplify procurement tasks, reduce risk, keep pace with legislation and achieve more.
