

Your at-a-glance checklist to building a positive safety culture

Your personal Building Safety Act checklist

4 key pillars

BS 8670-1:2024 outlines 4 key pillars of positive safety culture:

- Respect for life, the law, environment and public good
- Honesty and integrity
- Accuracy and rigour
- Direction, conduct and communication

What steps can you take to demonstrate your compliance with each?

Respect for life, the law, environment and public good

- Report safety hazards
- Ensure work is lawful and ethical
- Protect the environment and public good

Honesty and integrity

- Be truthful and reliable
- Respect confidentiality
- Report unethical or corrupt practices

Accuracy and rigour

- Only work within your competence
- Stay up-to-date on skills and knowledge
- Identify and manage risks effectively

Direction, conduct and communication

- Promote safety through clear communication
- Challenge unsafe practices or policies
- Be aware of the long-term safety implications of your work

By following these principles, you can play a vital role in creating a safer built environment for everyone.
