

Solutions for subcontractors

Constructionline
a Once For All company

ONCE FOR ALL

Leads that you can tender for today, straight to your inbox

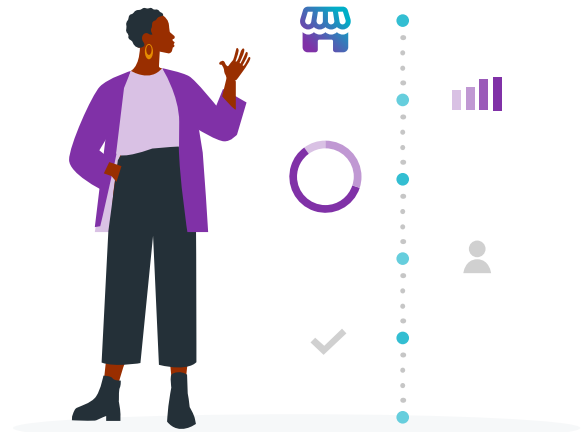

Find Marketplace in the sidebar navigation when you next login to the Constructionline platform.

We've designed Marketplace to serve the construction industry, leveraging best-in-class features to unlock exclusive project opportunities, and offer competitive tools that drive business growth.

Subcontractors simply need to login to the portal, complete their profile by adding details of the Trades or Services they provide and the locations they cover. These are then automatically matched to open projects from Main Contractors across the UK and an expression of interest (EOI) or invitation to tender (ITT) will automatically be sent to the subcontractor.

Search over 500,000 project leads that have also been uploaded into Marketplace, for both Private & Public sector projects, verified by our market-leading construction industry market intelligence team.

Find Leads

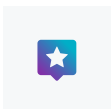

Fed up of paying over the odds for market data?
Tired of wasting time searching through leads
you can't bid for?

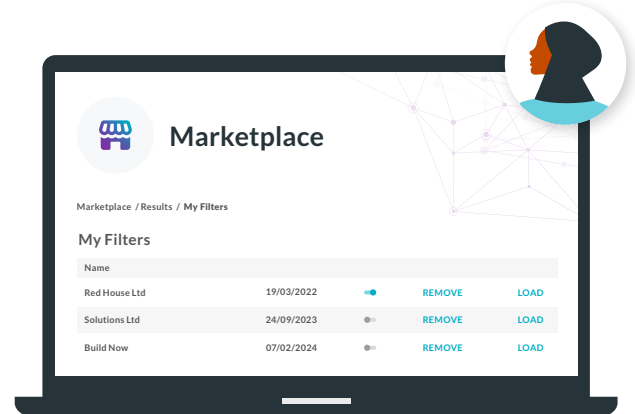

Marketplace Find Leads is the function to help you search through 500,000+ private and public projects, **including planning data from over 400 local authorities**, across every region of the UK, all consolidated in one location.

Search by keywords, CPV codes, contractor or client names, post code or region. Sort through project publish date or deadline, by status – Post Tender or Contract Awarded – and maximum value.

Save regular searches or favourite projects for quick reference.

Premium Leads
(also known as Builders' Conference)

Public Leads

Planning Applications

Did you know that all members on a Bronze, Silver, Gold or Platinum membership plan have access to this data?

Reliable

Track

After setting up a comprehensive company profile with all your work packages, that information will be shared automatically with thousands of buyers or main contractors nationwide.

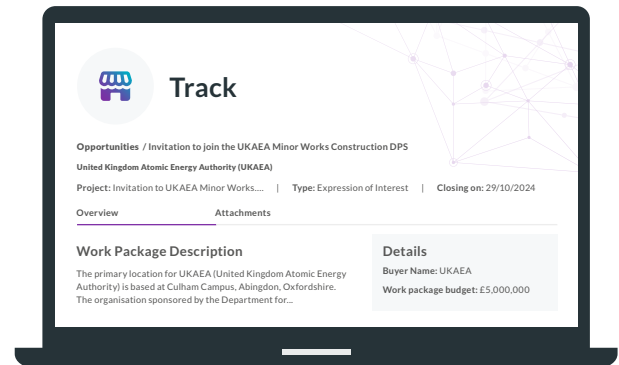

Receive expressions of interest (EOIs) direct into your inbox, or invitations to tender (ITTs) via our industry-leading Tender Management solution (formerly known as BidWork), helping you to track, manage and respond to enquiries with quotes.

 BidWork

Tender Management is the only enquiries tool using AI to take significant manual effort out of the tendering process. For example, by delivering automatic PDF downloads for changes to documents related to addendums.

EOIs

ITTs

6,000+

With over 6,000 invitations to tender sent out to subcontractors every month, make sure you are in the right place to receive one.

74%

In 2023, 74% of Constructionline subcontractors received at least one opportunity.

Marketplace powers Elcom Projects' new business pipeline!

Premium Leads from the most trusted construction market intelligence team

Originally created in 1935, our Market Intelligence team (also known as Builders' Conference), work tirelessly to secure information on the very latest construction project leads.

Focusing on different regions around the UK, each research expert maintains close relationships with key main contractors to understand which projects they are working on and when. Intelligence is stringently verified to ensure that leads are accurately shown as at 'post tender' or 'contract award' stage.
